Summary

BEng graduate in Information Technology (Web Development) from Oulu University of Applied Sciences. Built and deployed a production full-stack web platform for a live client as sole developer, covering requirements gathering, system design, development, testing, and deployment. Based in Finland with a work permit; open to relocation across Europe.

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, C, SQL
Frontend: React, Next.js, React Native
Backend: Node.js, Express.js, REST API
Database: PostgreSQL, MySQL, Prisma
DevOps & Tools: Docker, Git, GitHub Actions, Linux, Oracle Cloud, Cloudflare, Swagger

Experience

Freelance Full-Stack Developer, 404found Mar 2025 -Dec 2025

- A local restaurant managed all reservations and takeaway orders by phone and paper, causing regular double-bookings, missed orders, and no online presence.
- Built the complete platform from scratch as sole developer, responsible for requirements, architecture, development, and deployment. AI coding assistants were used throughout to establish patterns, accelerate implementation, and work through unfamiliar problems.
- Backend: REST API of approximately 60 endpoints with booking conflict detection, seat availability tracking, and JWT authentication across three role levels (customer, staff, admin), documented with Swagger.
- Frontend and infrastructure: two Next.js interfaces: a bilingual (Finnish/English) customer site and a staff admin panel. Containerised with Docker; UAT on Oracle Cloud with Cloudflare Zero Trust access control, then deployed to the client's Hetzner VPS with GitHub Actions CI/CD.
- Launched July 2025. Processed 3,000+ reservations with zero booking conflicts. Over 10,200 site visits in the first three months.

Projects

X-it Escape Room App Feb 2025 -Apr 2025
Frontend Developer · React Native, JavaScript, Docker

- Erasmus+ collaborative project between OAMK and Fontys University of Applied Sciences (Netherlands); cross-national team of 8 with all communication conducted in English
- Built the map view, venue listing screen, and user profile page connected to backend REST APIs

Education

BEng Information Technology (Web Development) Aug 2023 -Apr 2026
Oulu University of Applied Sciences (OAMK), Oulu, Finland · GPA: 4.53 / 5
Relevant coursework: Advanced Software Development, Data Structures and Algorithms, Cloud Services, Web Development Frameworks, Software Testing, Internet Programming and Databases

Languages

English: Professional working proficiency (B2) | **Finnish:** Elementary | **Chinese (Mandarin):** Native
