PROFILE

I am a final year IT student at OAMK, graduating May 2026. I have experience building full stack web applications from database design and API development to frontend and deployment. I enjoy working on real projects and I am looking for a junior developer or IT role in Finland.

SKILLS

Languages — TypeScript, JavaScript, Python, Java

Frontend — Next.js, React, React Native

Backend — Node.js, Express.js, REST API Design, JWT Authentication

Databases — PostgreSQL, MySQL, Prisma ORM

DevOps & Tools — Docker, Git, GitHub Actions, Linux, Swagger/OpenAPI, Oracle Cloud, Cloudflare

LANGUAGES

English: Upper Intermediate | **Mandarin:** Native | **Finnish:** Beginner (Learning)

PROJECTS

Okiniiri Web Platform, *Full-stack Developer | Next.js,* Mar 2025 – Dec 2025

Express.js, TypeScript, PostgreSQL, Docker, Oracle Cloud

- Successfully processed 2,000+ reservations without booking errors
- Implemented 60+ REST API endpoints covering reservations, orders, products, announcements, and feedback
- Developed booking validation logic to manage time slot availability and prevent double booking
- Designed PostgreSQL schema with relational integrity and migration management
- Built bilingual (Finnish and English) frontend and admin panel using Next.js
- Implemented authentication and role based route protection
- Containerised application with Docker and deployed to Oracle Cloud
- Automated deployment with GitHub Actions CI/CD
- Monitored production behaviour and iterated features based on operational needs

X-it Escape Room App,

Feb 2025 – Apr 2025

Frontend Developer | React Native, JavaScript, Docker

International student team project building a mobile escape room style app.

- Implemented interactive room management and map features
- Connected frontend components to backend REST APIs
- Participated in feature discussions and final demo presentation

EDUCATION

Oulu University of Applied Sciences,
BEng, Information Technology
Relevant coursework:
Cloud Services · Web Development Frameworks · Advanced Software Development · Software Testing
· Data Structures and Algorithms · Data Analysis

Aug 2023 – May 2026 | Oulu, Finland

OTHER EXPERIENCE

Wuxi Yosun Equipment Installation Co.,Ltd.,
HVAC Engineer

- Designed HVAC systems for large industrial facilities
- Coordinated technical teams and solved on-site engineering issues

Apr 2022 – Jul 2023 | Wuxi, China

Kone Elevator Co., Ltd., *Environmental Engineer Assistant*

- Assisted environmental testing and compliance documentation

Aug 2018 – Nov 2018 | Kunshan, China
